Family Star Launches New Website

Nonprofit goes "live" with new website during its 20th anniversary year

Denver, CO, October 5, 2011 – Family Star, with Montessori schools in northwest and northeast Denver, has just completed its new website: www.familystar.net

President/CEO, Ginny Trierweiler, Ph.D., said, "This is a special occasion for Family Star. Not only are we celebrating 20 years as a successful Denver Montessori organization, but we now have a website that is welcoming, easy to navigate, and one that tells our story in an informative, exciting way. We feel the new site better represents Family Star as a national leader in early childhood education."

Family Star enrolls 250 students annually, from birth to 6 years of age.

Family Star is a 501(c)3 nonprofit organization serving the Denver community since 1991. An award-winning child and parent education center, Family Star is an authentic and unique Montessori school because of its commitment to provide an inclusive, welcoming and engaging atmosphere to a diverse mix of students who enjoy the benefits of learning together.

The organization's parents and staff work together as a cohesive team, discovering and nurturing the potential of each child through authentic Montessori teaching. Family Star's programs not only enhance the educational preparedness of children, they strengthen families.

Family Star educates young minds by offering authentic Montessori classrooms, strengthens families by connecting them to needed resources and transforms communities by offering programs in which children of all backgrounds and abilities build the foundation they need to succeed in school and in life.
